nice idea with a lot of potential. Currently it completely exacerbates the motion sickness problem you get with VR with movement. Jet pack you can get used to, but the walking made me incredibly queasy.

Quite fun but needs more content (I know it's coming) and some way to overcome motion issues.. Don't buy it!!!

It's pure GARBAGE!!!

I got game for 9 cents and it's not worth it....game is dead, no players, graphic is very bad.. This is a good horror game with a great atmosphere and a clear objective- escape the office and don't get killed by the monster.

I really enjoyed it and the only problem I would say I had was that I couldn't find the key-card in the toilets... but knowing me I probably got it all wrong. XD

I made a video of the game in case you aren't sure about whether to get this or not. (You should. ;) )

<https://youtu.be/Uio0RAN8IE0>. It's a typical top-down shooter. It's actually quite challenging. The big difference here is that you can't move. It's enjoyable for the first 10 minutes (or at least until you die). The rest of the trilogy (the 2 games) are more of the same thing only with movability and/or more guns. Nothing more to write about. It's a fun and quick alternative if you are looking to kill time.. An easy to understand concept that lends itself very well as a simple puzzle game, even a little bit of learning thrown in for some obscure, useful words. No worries about running out of content either, thanks to the daily challenges. My only complaint is I wish the dictionary were a bit more accepting. As another reviewer stated, achievements would be a nice addition as well.

Gladly picked this up both on Steam and Android (iOS available too) as it's a nice puzzler at a great price.. Well 10€ would be too much but for 2€ this game is okay. At least there is some replay value. I played it two times.

Only problem is that it feels like you can't really fail in this game.. What was in fact the main drawback of the last CoD? Of course, maps - boring, gray and similar to each other. Needless to say that you got tired of running around this after a few matches? Fortunately, at least for an additional fee, developers eliminate this misunderstanding. In this collection you will find an abundance of positively diverse landscapes: the medieval Greek gardens, luxury arabian hotels and grim factories in half with an expensive cottages on the beach. After a similar, post-apocalyptic landscapes from the original, collection of this seems a breath of fresh air, and in combination does the impossible - forcing again to play in the seemingly bothered game ever.. it is a fun game it will probably be better if more people had it

i think this is♥♥♥♥♥. Great relaxing game. Very imaginative and thought provoking narrative. Amazing artwork and style. Just as good as Sunless Sea or better. Good value.. Game is unplayable & runs like trash. Was an amazing game (on the original console) back in the day but now... now it can't even handle people using the Main Menu without auto-terminating itself when using Steam. Don't buy, save your money & your time. Love this game so much. Hoping for a sequel.. It is a fun and addictive arcade game in its purest form. Collect as much energy as possible without dying. The controls are slick and the entire game factors in momentum and some physics. You don't have weapons by default. But you can use power ups to atack bandit ships, and lead them in to hazards. The game costs less than one US dollar and its a lot of fun. It has that "one more try" factor.. Unplayable on a Macbook Pro running macOS Sierra. Start buttons aren't detected and game won't go full screen. Super disappointed.. Quite like it.It's a bit different from the game actually used,but still recommend for those who enjoy the game and the original musics.

Each musics have their own style and their own attractments.For me,the Dance Party and the Pier really catch most of my attention.The Pyramid is the one surprised me.I don't like this map much but the bmg is great,also stylish.

So,get this DLC and enjoy it.. \*\_\* So much EXP \*\_\* Drowning in EXP \*\_\*
